BOTOLA D'ISPEZIONE IN  
CARTONGESSO CON TELAIO IN  
ALLUMINIO "SERIE GR13™" - LASTRA 13  
mm

Per ispezionare soffitti in cartongesso. Con dispositivo di apertura clic-clac. Per questa tipologia di botola possiamo fornire, con tempi di consegna molto brevi, altre varianti fuori misura anche di notevoli dimensioni (max. 120 x 300 cm). Durante l'ordine specificare la tipologia di lastra desiderata: standard, idro, ignifuga, calcio silicato o fibrocemento. Per soffitto.

MATERIALI

Alluminio naturale. Lastra in cartongesso idro.

AVVERTENZE

- L'utilizzazione e il montaggio del prodotto è esclusivamente riservato al personale esperto
- Il prodotto è monouso nel senso che le caratteristiche di durata stabilità e tenuta sono garantite per una singola applicazione e in nessun caso può essere riutilizzato in altre applicazioni
